FOREWORD

This booklet covers various activities of the National Security Division since its establishment in 2013 till June 2016. In its initial phase, the Division remained engaged in setting up various administrative mechanisms to ensure smooth functioning in line with its multifarious mandate.

National security is a multi-dimensional concept. It has to encompass all challenges that confront the state and its people. Need to undertake an in-depth situation analysis has, therefore, been high on our agenda. Linkages and coordination mechanisms were identified and put in place. The National Security Division also embarked on comprehensive discussions to understand, homogenize and draw a coherent picture for the preparation of National Security Policy. The process is moving fast.

This Division also remained engaged in organizing meetings of the National Security Committee as an important part of its functions.

The Division has a lean structure but the assigned tasks are highly important and sensitive. This requires a watchful approach and liaison with relevant Ministries and organizations.

These and other such activities are being documented here with the hope that it will serve as an important reference for the public, scholars, researchers and public sector entities.

VISION

We aim to develop Pakistan that is safe from all external and internal threats and where all Pakistanis would live together in peaceful coexistence and freely utilize their energies and talents for their individual and national advancement.

MISSION

Our endeavours are focused on integrating various initiatives for national peace, security and stability as well as social progress and economic prosperity into a common master plan based on principles and purposes of the Constitution of the Islamic Republic of Pakistan. Formulation and implementation of this master plan is a high priority for this newly created Division. In this connection, promotion of national consensus on various elements of national security is also important. As security becomes complex, need to promote international dialogue on its various facets is further highlighted. The Division also aims to build international synergies and cooperation on matters in security domain.
